OSPREY

Retail POS Solutions for Growing Businesses

The POS Solution Retailers Count On

For over 30 years, retailers have relied on our retail point of sale software solutions to enhance productivity, efficiency, and customer engagement. Our flexible system streamlines back-office processes, including employee, inventory, and vendor management, in addition to increasing revenues by integrating ecommerce with your brick-and-mortar system. In addition, our software allows us to leverage data to target promotions for greater effectiveness and to reward customers to build repeat business.

What Sets Osprey Apart?

Industry Proven

Our deep retail industry expertise and robust industry-specific POS software is designed for the unique challenges your business faces.

Payments Agnostic

Securely and reliably process in-store transactions and online orders through a single payments platform and a flexible merchant services solution.

Ease of Use

Osprey software is easy to install, simple to learn, and backed by support from our team with expertise in technology and your industry.

Effortless Scalability

Our POS feature set is designed to provide value to single-store independent retailers and multi-location chains, making it easy to grow and scale.

OSPREY
POS SOFTWARE

Simplify checkout processes and daily in-store operations with hardware-independent and configurable software.

OSPREY
KIOSK SOLUTIONS

Streamline checkout processes, optimize workforce productivity, and increase revenue with consistent upselling.

OSPREY
MOBILE POS

Put POS functionality in sales associates' hands, enabling them to assist customers anywhere in the store.

OSPREY
POS DATA

Real-time, two way communication enables you to easily access critical business data to keep a pulse on business performance.

OSPREY
MULTI-STORE POS

Designed for multi-location retail chains, our enterprise tool, OspreyHOST, makes it easy to successfully manage your growing retail chain.
